SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile applications using Flutter and Dart. Built and published two personal applications, Promptixa and CLVCA, on the Google Play Store, and developed the YoDoctor healthcare application from scratch during an internship. Skilled in Flutter, Dart, Riverpod, Provider, Firebase, REST APIs, Cloud Firestore, local storage, caching, and responsive UI development.

WORK EXPERIENCE

Flutter Developer Intern – Levesque Private Limited

May 2026 – Present

- Developed the YoDoctor healthcare mobile application using Flutter and Dart.
- Implemented navigation, reusable UI components, REST API integrations, Firebase Authentication, and Riverpod state management.
- Collaborated with the backend team on API integration and maintained modular application code.

Flutter Developer Intern – Hertzworkz Private Limited

Feb 2026 – Mar 2026

- Developed mobile application features using Flutter and Dart with responsive UI components.
- Integrated REST APIs and Firebase-based functionalities and worked on debugging.
- Collaborated with the development team on real-world mobile applications.

Android Developer – Project-Based

Jul 2026 – Aug 2026

- Debugged and stabilized an existing Java-based Android inventory management application.
- Worked across the Node.js backend, REST APIs, MySQL database, and Android-backend integration to troubleshoot issues.
- Investigated root causes, implemented fixes, and tested application and backend functionality to improve stability and reliability.

PROJECTS

Promptixa – AI Prompt Community (Published · Google Play Store)

- Flutter app using Riverpod, Firebase Authentication, Cloud Firestore, GoRouter, Hive, Cloudinary, and Google Mobile Ads.
- Implemented prompt creation, customization, favorites, community submissions, search, pagination, and responsive masonry layouts.
- Integrated Google Sign-In, image uploads, AdMob ads, remote configuration, adaptive navigation, local caching, and Firestore security rules.

CLVCA – Cross Language Voice Chat App (Published · Google Play Store)

- Flutter app using Dart, Provider, Google ML Kit, Speech-to-Text, and Text-to-Speech for offline voice translation.
- Implemented single-device and peer-to-peer translation modes with on-device language processing.
- Designed multilingual voice communication features for offline and traveler-focused use cases.

Sub-Station Guard (SSG)

- Flutter-based fault reporting application using Provider, Firebase, GPS, and media uploads.
- Implemented location-based reporting and media attachment functionality.

OPEN SOURCE

Chroma Kit – Flutter Package (Published · pub.dev)

- Flutter package for dynamic color manipulation, accessibility utilities, and theme generation.
- Implemented color blending, contrast ratio calculation, hex conversion, and MaterialColor swatch generation.

Chroma Theme – Flutter Package (Published · pub.dev)

- Flutter package for creating Material 3 compliant themes with minimal boilerplate.
- Implemented dynamic color generation, light/dark themes, and extensive theme customization through a developer-friendly API.

ACHIEVEMENTS

CLVCA Featured by StartupFortune

- CLVCA was featured by StartupFortune for its offline real-time voice translation capabilities.
- Recognized for enabling voice translation without relying on cloud services.

SKILLS

Mobile Development:	Flutter, Dart
Programming Languages:	Dart, Java, C++, Python
State Management:	Riverpod, Provider
Backend & APIs:	REST APIs, Firebase Authentication, Cloud Firestore
Local Storage & Caching:	Hive, SharedPreferences
AI & Speech:	Google ML Kit, Speech-to-Text, Text-to-Speech, On-device Speech Processing
UI Development:	Material 3, Responsive Design, Adaptive UI, Custom Widgets
Tools:	Git, GitHub, Android Studio, VS Code, Postman

EDUCATION

2023 – 2026	Bachelor of Engineering – Computer Engineering Shatabdi Institute of Engineering and Research, Nashik SPPU CGPA 7.86/10
2020 – 2023	Diploma – Computer Engineering Institute of Engineering and Technology, Kannad MSBTE 79.14%
